

READ PDF ABSTRACT FROM the full roundtable event Federal Health Agencies and the COVID Cartel What Are They Hiding

In preparing for this event, I was reminded of Louis Brandeis was, quote, in a Supreme Court decision, Whitney versus California, to quote him, if there be a time to expose through discussion, the falsehood and fallacies to avert the evil by the processes of education, the remedy to be applied is more speech, not enforced silence. I think that quote, is completely applicable to what's been happening over the last three, four years during the pandemic, the title is hearing is what are they hiding?

If we do zoom out and ask, what are they hiding? The answer becomes as obvious as it is disturbing. They are hiding everything,

it would be a much shorter committee. If it was, what did they not hide?

Why are the injured being hidden?

These excess deaths are undeniable

since taxpayers funded the private for profit research. Why don't we have 100% transparency on what we paid for the COVID

19 pandemic virus exists because it was bioengineered

in most cases, there's been an effort to obscure or deny facts in public communication by government and pharmaceutical industry representatives

independently of whether it's the vaccine or not. As a nation, we should all collectively want to know what is actually causing these tragic health results. However, the silence by the health authorities and the US government strongly suggest they know the answer to that question

in the name of Disease Control, national security. And the greater good, is es escalation of an historic denial of vaccine risks and failures that has become a dangerous assault on freedom of thought, speech and conscience and poses a grave threat to the biological integrity and natural rights of the people. CDC

significantly downplays myocarditis. As a side effect of the vaccine

analysis of the various pharmacovigilance database in the context of the COVID-19 injectable products has revealed strong emergent safety signals from myocarditis to death that are not being acknowledged by the owners of the data. As shot demand wanes. So do the myocarditis reports.

What is the actual risk when you add all these potential adverse outcomes together? Further still, how high is the risk? When you multiply all of these risks by five doses of the COVID vaccine? Are we still in the ballpark of rare

the SARS cov, two modified mRNA based vaccine products were deployed via emergency use authorization without adequate non clinical and clinical testing. And without full disclosure of known patient risk and efficacy data,

it is nearly impossible to publish data that goes against the National Public Health narrative. If doctors cannot publish the data, they cannot find solution to fix the problems. What

is going on currently is certain governments are now changing how they calculate these numbers. The ones just announced a change to the calculation methodology for their excess deaths number which reduces obviously the excess deaths because they liked that result better for those

that control literally public health and medicine in general. They're the this is the enemy. This is the Achilles heel of the entire pharmaceutical industry. They they are terrified of repurposed drugs, you will never get a repurposed drug to reach regulatory approval if there's more profitable alternatives.

I saw that many fake data and even fraudulent articles were published. Even in the major medical journals global policies

around COVID-19. vaccines were of course, dictatorial and discriminatory leading to the persecution of unvaccinated people such as myself, and also leading to vaccine injuries.

The modified mRNA and adenovirus vectored products employ cutting edge gene therapy and gene delivery technologies, and should be regulated as gene therapy products.

It has become clear that the US government along with the health regulators do not desire an honest accounting of these policies that we're imposed mostly under federal mandates. Each

inversion

we've witnessed more so over the past four years has been executed to precision by a small group hiding inside government and big business. There

wouldn't even be a new US newscast without farm ads. So the reporters on your newscasts are all conflicted. They can't bite the hand that feeds them.

Up to 85% of the academic papers, for instance, in the medical field cannot be reproduced and many of them are fraudulent.

Every single institution dedicated to public truth seeking is under simultaneous attack. They are all in a state of collapse.

This is a death sentence for journalists. It's how you murder a journalist without killing them. It's how you murder a scientist without killing them. It's how you murder a doctor without killing them. It's how you murder the vaccine injured when they haven't died yet. It's how you finish them off, and everybody else in their family

wait for the European Union to tell us exactly what was happening with the vaccination. During the same day, the day of the vaccination 12,000 People die the same day. And that should tell something about how criminal this endeavor is.

Who will be given full discretion to set up conditions under which all kinds of mandates including injections of experimental substances can be made mandatory on a global scale. If

they are adopted, democracy will be sidelined. In the event the who decides to declare a pandemic. Experts believe the who could then in practice impose lockdowns and Force medical interventions and dictate medical protocols. Right

now we're up to almost 37,000 deaths worldwide with the COVID 19 vaccine 24.4%. Those are occurring on the day of vaccination within one or two days. And nothing to see here

editorial we've endured the gaslighting the silencing is unconstitutional. The fact

checkers have been continually wrong throughout the last year this is going on, they initially claimed this could not get into the cells. First they claimed it wasn't there. Now, the FDA and

the regulators have admitted some facts there then they claimed it wouldn't get into the cells. We've now shown that in fact, that is the case

they knew was going to buy distribute, accumulate and every organ in the body they knew that the vaccine would not stay in the arm would not stay localized and that these inflammatory responses and all the other problems the DNA would be an issue. Correct.

The early death count was hidden.

All we're really asking for is just more specificity of what the ingredients are what's considered an active ingredient what's considered an inactive ingredient. And nothing more. This is completely non political. So everybody wants safe drugs, both

the virus origin cover up, and the forced vaccination of the entire planet, or orchestrated to protect the integrity of the bio weapons industry. We have proof of that cover up from the FOIA documents involving Fauci, Collins, Jeremy Farrar and others.

He has been ostracized, we our voice has been silenced. That was a censorship campaign that was condoned by the highest levels of government, it

was not only condoned at the highest level of garments, it was orchestrated by Yes,

yes, it was,

if the P_r is greater than one, a causal effect is indicated fact, the PR calculation for death from bears in the context of the COVID-19 shots using current various data is 3.6.

These products do not deliver natural messenger RNA, but rather a synthetic chemically modified form. With extended stability, which causes the body to produce quote, frame shifted unnatural unintended proteins in addition to the spike protein,

Vaccine Injury is neither minor nor rare.

Note we were told in 2020, that the COVID-19 risk of death is primary primarily in the older populations. However, in 2021, with the rollout of the quote unquote safe and effective vaccine, there were approximately another 500,000 excess deaths, but a mix shift had occurred from older to younger pharmaceuticals

companies are captured by the price of the stock. You know, venture capitalists on pharmaceutical companies, they own the CRO, the clinical research organizations, they own the site, they own the Institutional Review Board, they own the advertising the marketing, they influenced the the, through the media

standard operating procedures for analysis of safety signals emergent from veirs when utilized, reveal causal links between the COVID-19 injectable products and the adverse events investigated. Standard Operating Procedures are not being followed by the owners of the data, namely CDC, HHS and FDA. And this equates to hiding the millions of people reporting not only adverse events, but injuries in the context of the COVID-19 injectable products. wonderific.

Information is present in the medical journals. All the public media realized that in the worldwide that when we publish a context that is with the truth, nobody speak about it, or they say oh, no, it's just fake information, Pfizer

moderna, they already knew that there were extra cardiovascular deaths in their own trials. And their excuse was, well this has nothing to do with the vaccines. First of all data Didn't know that we now know that the vaccines do cause cardiovascular problems. Obviously, the policy of care was undeniably worse than the illness.

It's time now for us to stop taking taxpayer funds to slit our own throats. They're

trying to take the ones powerful human line, and turn us into an easily ruled and easily firmed human lamb when

the news is poisoned. So as democracy because we stopped debating about what's right, and instead, we waste our time arguing about what's true, our

division is necessary in order to keep us from restoring our capacity to understand and to plot our course in a rational way. The primary job that we have is to rebuild the basic tools that allow us to function as a society, we disguised

once again, that political interests, political party interests, always trump, the public's interest,

I believe, to the bottom of my heart that this was a great crime against humanity, that these companies were doing by promoting and by executing this vaccination. And unfortunately, it happened and looking back we can see what happened,

who cannot be trusted at all. It is funded by China, by big pharma, and by philanthropic philanthropist. I call them oligarchs by the way, they there are enormous conflicts of interest. further amendments, threatened free speech and seek to increase censorship of differing opinions, potentially transforming our nation into totalitarian like states,

the COVID-19 injectable products are associated with a 26 and a 100 fold increase in total adverse events and deaths respectively, when compared per million doses with influenza vaccines in the same timeframe,

the total excess deaths since the rollout of the vaccine in the US, including 2122, and 23, is approximately 1.1 million. We estimate the economic cost productive working age people dying at 15 Point 6 billion, I

see that for every one child that is saved from death from COVID 19. There are 30 deaths, 30 child deaths associated with the COVID-19 vaccine. So the risk to benefit ratio in terms of mortality is 30. To one

and what we saw this pandemic was the price of the stock mattered more than the price of a life.

I have many ideological beliefs. And I have put them all aside, the defense of the West is paramount. And to the extent that we differ over how society has to be managed, in some small way, let's fight about that later. We have to save the West. People

say that there is nothing in the Constitution that accounts for a pandemic. Oh, yes, there is. It's called the Ninth Amendment. And what is that Ninth Amendment say? The enumeration of the constitution of certain rights shall not be construed to deny or disparage others, retained by whom?

People. I want to thank all the participants, first of all for your courage, because I know the very high price you paid. I understand that. I want to encourage any people in any individual working in an agency, working in journalism, working in government, if you're seeing something that needs to be exposed, if you want to tell the truth. There's a email that you can

use whistleblower at [Ron johnson.senate.gov](https://ronjohnson.senate.gov), where you can blow the whistle. That's what we need. We need more patriots. Understanding the threat the danger our nation faces. Because of the misinformation the disinformation, the MAL information not coming from the dissidents, or from our government from our elite. This put this country on a very dangerous path.
